## *Royal Enfield Scram 440 finally arrives on the market*

**ROYAL ENFIELD** has launched a significantly updated version of the Scram 411. It is now called the Scram 440, and that's because the brand has increased the bore size by 3mm, which has led to the capacity going up to 443cc. This tweaked engine now makes 1bhp and 2Nm more than the previous models, taking the total

to 25.4bhp and 34Nm. There's also a new six-speed gearbox and a 15-tooth sprocket. RE has also added an LED headlamp and switchable ABS to the feature list. The Scram 440 is available in two variants, Trail and Force, each of which is priced at Rs 2.05 lakh (ex-showroom) and Rs 2.15 lakh (ex-showroom), respectively. [↻](#)
