Royal Enfield Sell 1,00,000 Hunters

SIX MONTHS AFTER ITS GLOBAL LAUNCH, THE ROYAL ENFIELD HUNTER 350 has found 1 lakh customers in India. This motorcycle features the latest 350-cc J-series engine and a chassis that handles well in addition to an extremely aggressive price tag. This makes the Hunter a serious choice for most motorcyclists who are looking to upgrade to a larger motorcycle. Furthermore, it also won the prestigious Indian Motorcycle of the Year (IMOTY) 2023 award earlier this year.

This motorcycle is also available in overseas markets, including Indonesia, Japan, Korea, Thailand, France, Germany, Italy, the United Kingdom, Argentina, Brazil, Columbia, Mexico, Australia, and New Zealand.
